IVAN D. MEDRANO

ivan.medrano.dev@gmail.com

PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ years of experience developing and maintaining production web and mobile applications for local and international clients across logistics, e-commerce, and client-facing services. Experienced in translating business requirements into software features, integrating APIs and third-party services, and delivering applications across web, iOS, and Android.

CORE COMPETENCIES

Full-Stack Web Development | Mobile Application Development | Requirements Analysis | System Design | AI-Assisted Development | Business Data Analytics | Agile/Scrum Collaboration

TECHNICAL PROFICIENCY

Stack: HTML5, CSS3, JavaScript (ES6), TypeScript, Vue.js, React.js, Next.js, Tailwind CSS, Bootstrap, Quasar, PHP, Laravel, React Native, MySQL, PostgreSQL, Supabase, Firebase, REST APIs

Tools & Platforms: AI-assisted coding tools, Git & GitHub, Docker, Linux, Project Management Tools, Figma, Power BI, Microsoft Excel, WordPress, VMware, PostHog

PROFESSIONAL EXPERIENCE

Rooche Digital IT Solutions, Philippines | March 2026 - Present
Full-Stack Developer

- Develop and maintain production web and mobile applications for local and international clients, delivering new features, bug fixes, and ongoing system improvements.
- Work with REST APIs, webhooks, and existing third-party integrations including Twilio, Saleor, and Zoho CRM, while maintaining scheduled background jobs and automated processes.
- Develop and maintain a React Native mobile application for iOS and Android, implementing new features and resolving production issues across both platforms.
- Use PostHog to analyze user behavior and identify drop-off points, while leveraging AI-assisted development tools to learn unfamiliar technologies and accelerate implementation.

Metro Mobilia Corporation, Philippines | September 2025 - February 2026
System/Project Coordinator

- Analyzed existing business processes and translated requirements into system workflows, database structures, and application features.
- Developed and tested core inventory and project tracking functionality, iterating on features based on stakeholder feedback.
- Deployed a centralized web-based Inventory & Project Tracking System across branches, improving inventory visibility and project monitoring.
- Centralized branch updates and reduced manual data collection and reporting turnaround time.

Consultare Inc. Group, TX, USA (Remote) | February 2025 - May 2025
Front-End Developer Intern

- Developed 4 Vue.js/Quasar modules and Bootstrap-based E-Forms to support operational requirements and rapid deployments.
- Collaborated with developers and stakeholders to implement UI improvements and deliver features within project timelines.
- Contributed to QA testing and documentation, enhancing system reliability and user experience.

EDUCATION

Batangas State University - The National Engineering University
Bachelor of Science in Information Technology - Major in Business Analytics | 2021 - 2025
